

UAVPal

UAV imagery from Bhopal

A UAV dataset for urban scene understanding from India

This survey has been carried out under [Water4Change project](#), a joint collaboration between  and . The drone survey has been conducted with assistance from [AccionLAND](#).

-
- **DSM:** This directory contains digital surface models.
 - **Image:** This directory contains orthorectified RGB images.
 - **Label:** This directory contains raster annotations.
 - **Vector:** This directory contains vector annotation and area of interest in GPKG format. The spatial outline of the of training and test samples are available in the `Sample_Distribution.gpkg` vector file. Additionally, a KMZ file of the scene has been provided for visualization purposes.
 - **VRT:** These files creates virtual raster mosaic on the fly.
 - **_POSIX:** The filenames ending with this tag indicates compatibility with UNIX like operating systems.
 - **_NT:** The filenames ending with this tag indicates compatibility with Windows operating system.
 - **Image Format:** All images are in GeoTiff format with EPSG:32643 coordinate reference system.
 - **GDAL:** Recommended GDAL 3.6.0+ with libtiff 4.3.0+, ZSTD and JXL support.
 - **License:** The `LICENSE.txt` file contains the mandatory license agreement. If you download or use this dataset you automatically agree with this license agreement.
 - **Cite:** If you use this dataset consider appropriately citing it.
 - **Data Config:** Relative paths to the Train and Test samples are available in `Data_Config.json` file in machine readable JSON format. Template of the config is shown below:
